

LASH EXTENTIONS

Lash extentions are applied one by one meticulously to your original lash starting 1mm away from the root. Since the eye area is a very sensitive part, lash extentions should only be done by trained beautician using medical-grade/high-quality products.

FAQ

1. Is it painful / itchy? Does it sting?
Not at all, in fact you will not feel anything and will most likely fall asleep during process.
2. Process duration?
1.5-2 hours working time.
3. Will it make my original lash fall faster/damage my original lash?
No, lash extentions will fall down following your original lash growth cycle. Lash extentions will not reduce your lashes or make them go bald. Correct lashing technique will only glued the extension(s) to ONE original lash (1mm)away from the growth and condition of the original lash.
4. How long will it last?
4-5 weeks (depending on your maintenance, skin type, and weather).
5. When the right time to retouch eyelash extentions?
3-4 weeks for 1 periode.
